Credit Name: 2nd programming language

Assignment Name:Change

Error Log Entry

What error message did you encounter (if any)?

I did not encounter any error message

What unexpected behavior did your program exhibit?

not much it didnt really do anything unexpected cause I knew i made a mistake

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)

it was a logic / calculation error

Include a screenshot of specific lines of code.

How did you fix the issue?

I accidently divided the cents by the amount of nickles instead of just taking the remaining coins and using it as my value for cents

Provide the corrected code or solution using a screenshot.

```
int nickels = cents / nickel;

cents %= nickel  //taking the remainders of change after the dimes
```
