Credit Name: 2nd programming language

Assignment Name:Printing

Error Log Entry

What error message did you encounter (if any)?

I did not encounter an error message

What unexpected behavior did your program exhibit?

The method didnt accept 'string' because of the decimals so i ended up using 'double'

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)

it was a logic error

Include a screenshot of specific lines of code.

How did you fix the issue?

I changed the method to use 'double' instead of 'string'

Provide the corrected code or solution using a screenshot.

```
    //a method call that sends the user's number of copies into the method and replaces itself with the matching price number.
public static double getCategory(int copies)
```
